Secretary/Editor  
306 Echoes

I appreciate receiving the 306th Echoes and have located two friends from the Directory.

Also, I hope it is not too late to get a new picture published. It was made in Lincoln Nebraska prior to our departure by boat to England about Christmas 44 - (England in 45) I enclose a print & negative - both of which you can keep. I have an original picture.

My best information was destroyed when my parents home was demolished and I do not remember the full names of the waist gunner (Sgt Gilbert), The Navigator or the Bombadier.

Sincerely,  
TC with  
367TH  
Sg. in 45

(over)

Thanks again for your work with  
the paper & directory.

Some of my best & worst memories  
are of England. We were a very  
close crew with a fine pilot &  
it hit me very hard as a 20yr old  
to lose my crew. I had 21 missions  
when it happened in Apr 45.

But I also remember the wonder-  
ful old English gentlemen, base  
Librarian who gave me a  
copy of "Man Hunt" to read  
on the way home when I left  
for the States. He had tears in  
his ~~own~~ eyes - and I remember  
that too. Someday I'll  
visit England again, but it  
will be a sad visit because  
most of my crew is buried  
at Cambridge.

Kevin Cargile
