C. Dale Bissell

Dear Sir:

I find that my name appears only in the alphabetical listing and it carries a suffix of C. J. I assume the "C. J." refers to Casey Jones.

As a matter of information, I was a navigator. I started out in troop carrier. After flying the D-Day para-drop and the D+1 glider tow - and subsequent resupply and evacuation missions I transferred to medium bombardment. I flew over 30 missions with the 322nd B.G. 452nd sqdn in B-26¹⁵.

After the end of hostilities I was transferred to the 306th 367th sqdn in June 1945 and took part in the Casey Jones project.

My tour with the 306th was short lived. I became ill and was eventually transferred to the detachment of patients at the Gen. Hosp. near St. Albans and arrived back in the States in Oct 1945.

I spent over 30 years as a civilian cartographer with the D.O.D and believe it or not used some of the C. J. material that I had helped acquire.

Sincerely,

Bob Davis
