

1 July 1988

Dear Russ,

I appreciate the directory of the 306th. (I've sent the "fee" to the Treas.) There ~~is~~ is one error and one addition. I was in the 368th (not the 423rd). At the St. Paul meeting, I talked to Hollis Baker - who "enrolled" me - and since he was in the 423rd, I guess he thought I was also!

My new ZIP code ~~is~~ as of 1 July is 55346-1548.

I feel somewhat guilty that I haven't provided more documents of the 306th that I do have. They are primarily very late orders, etc. from England, Geibelstadt, and Istres. I was a radar maintenance officer ^{at Thurleigh} - communications officer. In charge of the telephone system at Geibelstadt and Istres for several months. I'll try to copy some of these and send them to you (in N.C.). I remember some other radar maintenance officer asked for

Technical info. about radar equipment
in some 8th publication. I do have some
technical manuals for a couple of the
pieces of equipment. - Gee etc. I
don't have the address of the guy who
was writing about this. Do you?

In 1963 I visited Thurpleigh
and have a good story about the base
visit. I'll try to write it up for your
editorial pen.

Sincerely

Wale W. Rysinger
