

Secretary 304th

Dear Sir:

In the July issue of Echoes I noticed a picture of Pattons crew. I was radio operator on Emmett Sutherland crew & had been assigned to Rose of York.

However, my last mission #35 Feb 10, 1945 was with a pilot by the name of Patton, the mission was Munster, could you confirm if this may be the one & if so, would you have his address?

Thank you
Merle Bering
