Dear Robbie,

You contacted the correct
Lambone. When your letter came
I was going on a golf trip with
11 others to Mid Pines N.C. for
a few days. We go every year.
Needless to say we had a good
time and had no time to respond
to your welcome letter. It has been
a long time and you are the only
one on the "Butter Cup" crew I have
heard from.

I have received the "306th Echoes"
and the first name I saw listed was
yours. I recall a few of the others
but it's been so many busy years
since "thursigh days". Many memories
will no doubt come to me as I
recall little incidents or read
of the 306th history.

Well, I remember Joe Gabriel
and his "goat dinner". One of the
more enjoyable events plus the fact
he was one of the very best crew
chiefs. His good work saved our

beats many times. Yes. Fisher
was the delight of the crew with
his wild dancing. all the other
fellows are too numerous to
mention here but it would be
wonderful to see or hear from them
I hope they are all around.

I can't tell all in one brief
letter but will give you a few high
lights. as you know I went back
with G.M. some good and much bad
but stuck it out and retired 3-26-75
We paid our own moving expense
from Hampton, Va. back to Roanoke -
live in Botetourt Co. near the
Blue Ridge Parkway and the Appalachian
Trail. We have been hikers since
first in Roanoke - 1954. And I have
played golf all my life. Elizabeth
has about given up golf but I am
on the links 3 or 4 times each week.
Out today but gave up after the 2nd
hole because of a snow storm. Who
would think such on the first day
of spring. Such is the life of an
old retiree.

Many years ago I ran into John
Reyer at Old Point Comfort, Va. He

managed to do on a few and
talk over old times. Thought we
would keep in touch but didn't.
My work kept me busy traveling
or when in the office thru mid night
and burned. G.M. gets an awful lot
out of employees to say the least.

This tells of a few things. Our
health is still reasonably good. We
(Eig. & I) still hike when we can but
stay away from the 15-20 miles. They
are for the young and foolish. Also
travel some but never had any
desire for Europe or other far places
The good old USA and Canada is for us

Enough about me. Let me
hear more about you. How the
306th Echoes got going, how you
became President (congratulations)
and what you are doing. I assume
Texas or Ft. Worth (?) Power has
let you retire?

Best regards
Lambone
