Dear Art:

We thank you for your recent gift to the Echoes fund, and hope that you won't be troubled by not contributing in the future due to your peculiar circumstance.

We of the 306th are most understanding, and gifts to the Association, while suggested, are never demanded.

Please let us just keep you on the mailing list for the indefinite future, and enjoy reading it as you find the time.

It grieves me to know of the trauma which you are going through. While my wife and I remain in good health at the moment, we both are very cognizant of the terrors that Alzheimer's brings to families. My mother died at 96, and for several years suffered from what the doctors described as senile dementia, but which bore to us all the signs of Alzheimer's.

Our prayers are with you, and as the editor, I hope that you can enjoy Echoes for some years to come.

Sincerely yours,
