I had 19 missions in - I was told at last you are dead after 3 missions I was pretty close to it I had my left foot frost bitten the mission over north sea - Practice raid from north sea to Berlin it was terrible the weather was bad and the Bombers were crashing each other I saw 2 crashes and went down with the planes. Had a raid on Gross Weir I was hit with Cannon fire I got 3 in the head 2 in the back 2 in my right Buttocks

Went on the 1st daylight Berlin raid had a crash with German Fighters. We had the ball hanging to bail out - none of the crewmen bailed out the pilot did an exact job of getting on back to Bedford England ALIVE

I hope to see you
and other people that I
know.

I like to write a book
it would make a good
movie but it wouldn't
be fiction.
