D. THE WILLIAMS NUMBER 19, HQ AF Station 111, 24 July 45 continued:

SUGGESTION NO. 1:

-1-

SUGGESTION: "Before some GI's start flouting like we did on account of about 7 hundred chiselers on chow mounts. How about an L.P. to clean down on the N.I. corner door, especially."

REPLY: Action will be taken on this today, in the form of several senior Officers at the mess hall doors.

-2-

SUGGESTION: "That chiseling or buckin, at the entrance of the Northeast corner of the mess hall line be forcibly prevented by L.P.'s. This practice has existed too long and immediate measures should be taken. Suggest that a personal survey should be taken at 1120 hours to give visible proof of unfair selfish practice by some AF personnel."

REPLY: Same as answer above.

-3-

SUGGESTION: "The chiseling in the chow line is reaching proportions unbearable. I'm fed up with it and soon some fists are liable to start flying. How about posting an L.P. on the line form and especially at the Northeast corner entrance, say from 11 to 11:30. I've been spotting it out for 32 months why not everybody do it?"

REPLY: Same as answer above.
