5. TRANSPORTATION:

The following additions to Liberty Run and Bus facilities to Bedford will be effective 19 July 1945 only:

Trucks will leave the station at 1530 hours. EI trucks will leave from the Crossroads. Officers trucks will leave from "J" Ross.

Officer and EI Liberty Runs leaving Bedford at 2215 are cancelled for 19 July only.

To accommodate those people attending Red Cross dances trucks for both Officers and EI will not leave Bedford until 2400 hours. This will not effect the usual 2300 hour run for EI.

INCIDENTS ETC:

SUGGESTION: "Why don't we have a good demonstration of skill and equipment both by starting an Air Demonstration at least once a week. I'm sure this will help in the morale for a while any way. Qualified pilots of any rank could give us plenty of chills and thrills, such as diving a P-47, P1 and 58. We could have a demonstration of what would be judged as a smooth landing, of P-17, this will encourage experience and taking up of a GI thinking of home for at least an hour".

ANSWER: Operations at the moment hinder us from having a large air show but competitive landing of P-17 aircraft can be done. Group Operations will try to work up such a program in the near future. Due to the inexperience of our pilots in fighter type aircraft it is not advisable to have them perform acrobatics in a demonstration. Moreover, a letter has been dispatched to 1st Division requesting that a fighter group put on a show for us between 1400 and 1500 July 29th.

-2-

SUGGESTION: "Suggest the bicycle racks in front of the IX be improved. The present ones are most unsatisfactory. Those by the store are much better and just as easy to construct."

ANSWER: Bicycle racks are under reconstruction.
