SUGGESTION BOX:

SUGGESTION: "I suggest the work on this field be cancelled until the food warrants it. One spoonful of spaghetti comes a hell of a long way from filling me up."  
(OVER FOR ANSWER)

DAILY BULLETIN NUMBER 211, Hq AAF Station 111, dd 31 July 45 continued:

SUGGESTION BOX (continued):

-1-

ANSWER: When did the mess ever serve one spoonful of spaghetti as a whole meal? SB considers this an unjust criticism - did you ask for more? Be specific as to time and date and SB can give you a specific reply.

-2-

SUGGESTION: "What has happened to our Post dance band? JHY? If I am correctly informed the powers to be at this station has said that the men playing in the band could not be spared from their regular work. How idiotic that is. Here two months ago, when the personnel situation was most critical, the Post dance band was considered necessary to the morale of the station personnel. In spite of their acute need on the line and in other important operational positions they were given time off to practice and play for social functions. Now that the shooting war is over and we have taken up Boy Scout tactics it appears to me that the need for an organization to furnish music at social functions is greater than ever. Perhaps the "Jhools" might be interested in knowing that the morale on this field at the present time is at a new low... They like to have their own type of dances to, not English dances. Of course it hasn't occurred to certain people around here that our own band is about the only source of American Style music as most other fields which did have a Post dance band have moved out. Already one squadron party has been cancelled and the almost certain possibility that another one will have to be cancelled. JHY? No dance band is available. Of course this increased the morale of those outfits 100% ..."

ANSWER: You are not correctly informed. The men playing in the dance band were authorized and encouraged to take as much time as they needed for practicing and playing and were using as much time as ever for that purpose. They were told that they could not be relieved from all military duties and became a full time band. The main reason the band quit playing was because of men completing their missions and being redeployed taking a number of the good players.

The rest of your 'suggestion', is just a plain, 'bitch', and was deleted in keeping with the policy of SB not to publish criticism or remarks that reflect on individuals.
