Today, Tues, 26 Jun/45 - "WINGED VICTORY"
Tomorrow, Wed, 27 Jun/45 - "Sgt. HARRIS", Erroll Flynn, Brenda Marshall.
2. SAFETY SLOGAN: "A G.I. who thinks at his work will outlive the careless jerk."

SUGGESTION BOX:

SUGGESTION: "Colonel Upham: Sir, can you tell us why the 306th Bomb Group personnel should receive commendations for the work done, almost entirely by the Engineering Squadron?"

Doesn't it seem fair that the Eng. Sqdn. should receive a little credit and consideration for the work that it has accomplished on the (OVI.)

DAILY BULLETIN NUMBER 176, Headquarters Station 111, dd 26 Jun/49 continued:

SUGGESTION BOX (continued):

present modification of commendation

Although we were denied the Bronze Service Stars and Citation for the same type of work done in the past, this "Commendation" received by the Bomb Group is the straw that broke the camels back.

We have been reading the history of the 306th Bomb Group and not once did they mention the Sub-Drop of the Engr. Sqdn.

Being here nearly as long as the Bomb Group and doing all the major repairs and major battle damage repair, we think that the least they could do, would be to mention our Sqdn once in awhile.

It seems that when there is work to be done, that we are considered part of the Bomb Group, but when it comes to receiving credit, we are a "forgotten Sqdn."

ANSWER: Colonel UHLM advised SB that he has not commended the Bomb Group personnel for any work done by the Engineering Squadron.

There is no record in Station Headquarters of the "commendation" you refer to in connection with the present modification of commendations. If such a commendation exists, SB would like a copy.

No person at this Station is responsible for the "pettle tear" situation. As explained in answers to previous questions, the Station Commander has done all he can on this matter. Your attention is invited to "Yank" for 29 June 1949 for further information on this subject.

The history of the 306th Bomb Group is not a history of AEF Station 111, not of the Service Group. Each unit and organization on the Station has its own history, including the old 352d, the 449th and the present Service Group. It is suggested you read them also.
