SUGGESTION BOX

SUGGESTION: "According to existing regulations, any unit assigned to or attached to the Eighth Air Force for administration, is not authorized to wear the garrison cap. Right? Then, .. could you tell me why you can see any number of personnel, wearing the Eighth Air Force patch, also wearing the garrison cap, and are never molested by the H. P.S; especially in the London area?"

ANSWER: When you see an 8th AF man wearing a garrison cap in London, how do you know he hasn't already been picked up by the IP's, then allowed to proceed? That's a good question, isn't it?? You may not be aware of it, but our Station Headquarters is still getting occasional reports on our own men for wearing the garrison cap in the London area. These reports come from higher headquarters who in turn receive them from the IP's.
