

HEADQUARTERS 306TH BOMBARDMENT GROUP (H) (D-A-4)
Office of the Intelligence Officer
United States Forces

APO 634
13th December, 1943

SUBJECT: Intelligence Report.

TO.....: Commanding Officer, 306th Bomb. Group (H).

1. Hot News.

A/C #768, Pilot Brinkley, of this group, is missing. No information reported here since he flew with composite group of 40th Combat Wing, which should report any information available. One B-17 spun down over target at 1250 hours. No chutes observed. One B-17 peeled off (under control) SW of target at 1217 hours. No chutes seen. One B-17 feathered prop at target, dropped bombs; was very low and straggling when last seen at 1243 hours. B in triangle. No chutes. One B-17 in another wing, number 4 engine on fire, was under control going down near I.P. No chutes observed.

2. Narrative.

22 A/C took off at 0825, and at 1005 were at 5325N - 0007E. 20 A/C of 306th group were slightly south of course on leg out over North Sea, making turn, however, at briefed point for turn into Germany. Estimated course then crossed Heligoland to mouth of Elbe where this group followed wing leader in 360 degree turn to allow the 40th CBW to take the lead; thence to a point just SW of Hamburg; thence due north 15 miles; thence to 5340N-0950E to I.P. at 5413N-1026E at 1245 hours. Bombed target at 1248 on heading of 300 degrees. Left target with a swing slightly south of west, then north again to a point just north of Heligoland and a straight leg from there to 5438N-0646E, and thence home on course. One A/C #363, Pilot Winter, turned back at 1010 hours at 5330N-0100E because of engine failure and brought back 8x500 and 20xM47A1. One A/C #724, Pilot Rehn, turned back at 1120 hours at 5420N-0500E because of engine failure and jettisoned 8x500 and 20xM47A1 in North Sea.

3. A.A. Gun Fire.

Moderate A.A. gun fire through 10/10th undercast at Hamburg took form of continuous following and concentrations of 8 to 12 bursts. Its accuracy made evasive action essential. Meager to moderate fire over Heligoland, Cuxhaven, Elmshorn, Eutin. Six rockets were reported to burst above formation in target area - as if fired from the ground. They trailed white smoke. Bursts were A.A. gun fire size.

4. Fighter Support and Fighter Opposition

The 306th supplied 20 A/C as low group in the 92nd Combat Wing and 2 A/C to fill in the composite group of the 40th Combat Wing. No enemy fighters were met by our group formation. Fighter escort was met as briefed. P-38s were seen near I.P. at 1230 hours and continued with formation until 0103. P-51s were picked up at the target at 1247 and stayed with formation over coast on the way out at 1344. One of our A/C #782, lost an engine through oil failure, left formation and started back alone. He was attacked persistently by a Ju88 which picked him up over Amrum and pursued him at practically zero altitude through an enemy convoy. Our A/C got in solid bursts and 88 broke away with both engines ablaze firing two sets of Red-Yellow flares before disappearing in haze. We claim this Ju88 destroyed - only claim on mission.

5. Bombing.

Pathfinder of 92nd C.W. had trouble before target. Tried to reach Bull Pen leader to take over. Finally made 360 and got behind 40th C.W. who went in first and bombed. Our lead A/C dropped bombs on one large red flare from 92nd PFF A/C which made its own fix following the bombing of the 40th. 92nd bombs dropped approximately one mile or more from 40th's bombs. The flare was partially obscured by heavy con trails. 19 A/C including the leader, dropped at this time. Results were unobserved due to 10/10ths undercast, but several crews reported that there was a good concentration on the marker flares. One A/C #782, Pilot reed, had engine failure and jettisoned 8x500 and 20x147A1 over Germany 12 minutes before the target in order to lighten his A/C.

6. Observations and Comment

Several crews saw big red flash and 2 big columns of black smoke on right of formation going in. Seemed to come from Bremen and was probably result of bombing of other task force. Pilots feel PFF procedure should be standardized to avoid confusion. One red flare was observed at bombing instead of two yellows which had been briefed.

For the Commanding Officer;

JOHN A. BAIRNSFATHER,
Major, Air Corps,
Group S-2.

REMARKS: _____

Target KIEL

1. Route followed Heligoland to mouth of Elbe, made 360° turn to allow 92nd C.B.W. to take lead to S.W. of Hamburg to 53°40' N. - 09°50' E. to I.P. at 54°13' N. - 10°26' E. to target then a swing slightly S.W. thence to just north of Heligoland to 54°38' N. - 06°46' E. to base.

2. Visibility at Target (Any condensation trails?) **Persistent con. trails. 10/10 cloud at target.**

3. No. of A/C over Target. **20 A/C.**
Bombed at 12:48 hours.

4. Formation over target, with height of each A/C. Those A/C damaged by Flak to be circled, and if seriously damaged, insert small "S". If any A/C shot down by Flak, say so:-

			<u>025</u> 25200				
451	506 730	827	865 S 728 S	767	706 796	992 S 841	606 632 143
							515 132

782 came back alone. Was target for flak. One ship did not return with Group. Reported flak from Frisian Islands.

5. General Axis of attack (from lead A/C if possible)
300° Mag.

6. How long did formation fly straight and level before bombing?
3 minutes.

7. Turn after bombing. **30° left turn.**

8. Position of Group in relation to other Groups, **Low Group in 92nd C.B.W.**

9. What evasive action was taken? **Gradual "S" turns.**

10. A short description of Flak en route (if any) and at the Target, including if possible a suggestion as to type of fire control employed - i.e. Continuous following predicted concentrations, predicted barrages, or fixed barrages.

Heligoland - meager, low, inaccurate.
Cuxhaven - meager, accurate, tracking.
Hamburg - moderate, accurate, both barrage and tracking.
Klusehorn - moderate, accurate, probably pred. concs.
Butin (in vicinity of) - moderate, inaccurate.
Target - moderate, accurate, both barrage and tracking.
Flak at coast on way out - tracking.

11. Any other Comments, Phenomena, etc.
Target area - six rockets fired from ground gave off white smoke trails and burst was red about size of flak. Burst above our formation. Few red bursts just after target.

WARA Date 1/8/94

Story of the Attack - After B-17 # 782 had been forced to fall out of formation due to engine trouble, and had lost altitude to 13,000 feet, a Ju-88 flew 3,000 feet below it, climbed to its altitude, and attacked from 7 o'clock. The B-17 at once headed for the deck and its bad engine caught fire. With the enemy plane on its tail it managed to get into clouds at 4,000 feet, continuing down until only twenty feet from the water near Aarua Island. Here the fire went out. Then the Ju 88 jumped it again and attacked from the tail, pulling around to the right and preparing to make another attack from 1 or 2 o'clock. Our pilot turned sharply into the attack, thus preventing the enemy fighter from bringing its guns to bear and compelling it to turn away from our plane. It then turned left and across our nose, when the bombardier and top-turret gunner each fired bursts and saw tracers going into him. The Ju 88 then turned left again, going down our left side in the opposite direction with engines smoking. The left waist gunner got in a good burst, then, as both engines burst into flames, two series of red-yellow flares were seen to come from the enemy fighter, and it then disappeared into the haze, only forty feet off the water.

745005
tion 3.3, 189
WARA Date 1/8/94

#789, with "H" in triangle, joined 92nd on way out and seen between I.P. and target at 1244 at 25,000' with #3 prop feathered, #4 smoking.
A B-17, possibly the same, was seen over target at 1247 at 8,000 feet with #3 prop feathered and #4 smoking. This A/C was seen still flying at same altitude at 54° 15'N., 09° 50'E.

DECLASSIFIED PER EXECUTIVE ORDER 12356, Section 3.3, 189
By RLB/BAC
WARA Date 1/8/94

Report from Johnson at Division says 92nd not sure of # (correct # is 768) but was sure of "H" in triangle. Since Brinkley was only ship lost identification seems positive.

JOHN A. BAIRNSFATHER,
Major, AC,
Group S-2.

COMBAT FORM

Group 306th Date 13 December, 1943
Squadron 363th Place where attacked Over Denmark
A/C No. 782 Time 1310 Height 13,000

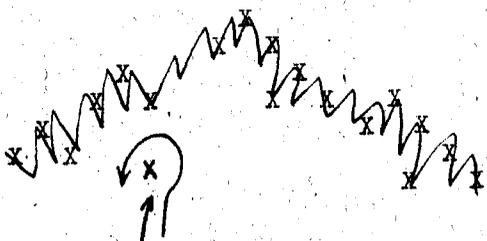

1. Story of the attack:- (See reverse side)

DAMAGED
A-2. I.B.W.

(Include above how E/A attacked; how close he came, where he was hit; how much he was damaged; and how he looked and acted going away)

2. Diagram of attack:

On Diagram, show:
a. which of our A/C was attacked;
b. Direction of E/A attack;
c. Sun position.

Data on Combat
a. our heading Good at altitude
b. visibility JU 88
c. type of E/A
d. level of attack;
From high above 6 O'clock
level 7 O'clock
below very low O'clock

3. Our Gun Positions Firing on E/A.

(Check below)

Names Sgt. C. A. Houser Sgt. D. S. CoGreen
6712 69th Place, Glendale, N.Y. Postal Box 21, Winborne, Miss.
Positions Top Turret Left Waist

4. If E/A was Shot Down or Damaged:

Corroborated by 1st Lt. Reed 2nd Lt. Allen
Position in A/C Pilot Bombardier
Other A/C firing at the same time? None

5. Comments of the interrogator: Destroyed

If formation was very different from standard, show on back of sheet.

B-17 WITH ONE ENGINE OUT TURNS INSIDE JU88

On the 13 December mission to Kiel, 1st Lt. W.D. Reed of 306th Group had his #4 engine knocked out by flak. He lost the formation but went on to drop his bombs, then started home alone. Just off the Danish Coast he was attacked by a Ju88 which he managed to lose by diving into the clouds. Coming home on the deck, the Ju88 found him again and attacked from the tail. Passing to the right, the Ju88 turned back to attack from two o'clock. Lt. Reed turned into the attack so sharply the Ju88 could not bring its guns to bear and exposed itself to the concentrated fire of the Bombardier, Top Turret and Waist Gunner as he went by. Three times the Ju88 swung into attack and each time the crippled B-17 swung inside the enemy aircraft, the dead #4 engine on the inside of the turn. The third time the 88 passed, both engines broke into flame and the Junkers disappeared, firing red and yellow flares, probably a recognition or distress signal to nearby surface vessels. ✓ Although Lt. Reed bumped into two enemy convoys on his way home, he landed at base with none of his crew injured and no battle damage, except for that caused by the first burst of flak --- a tribute to his pilotage and the maneuverability of the B-17.
