0730

Made necessary calls for return of ops

- 0850 No change in Masquerade
- 0931 Part ops. 9c off
- 0934 Col. Williams requests that we call 423 "Y"
and tell him to proceed to rendezvous Point "A"
Landed on Station freq. Could not contact "Y" yoke.
told VHF D/F to try it.
- 0946 Contacted 423 "Y" told him to proceed
to Point "A" as instructed by Col. Williams.
- 0945 L-5 landed from Langar enroute to Smiths Law
because of weather. Div. notified to prevent
overdue action.
- 0955 9c told to use left side of R/W 24 when
taxying out for take off. Also telling them to
use caution in landing because of bad
spot at start of R/W.
- 1005 Green to ops + div.
- 1045 I expected aidrome. R/W 24 for ~~1st~~ 100 yds
is breaking up. 9c not to use first 100 yds in
landing.

- 1045 M.P. placed at intersection of main and N-S R/W
- 1150 Engineers are to start on R/W 24 as soon as possible per Col. Coleman. Check with Maj. Hattrell.
- 1230 On duty Capt Broadbent, Lt. Crowell - 24 April.
- 1300 Inspected general airframe area.
- 1320 R/W being changed to 30 while work is being done on NE end of 24.
- 1415 Beaufighter landed with port engine out - Timmwood called to ask if it was theirs. Pilot talked to them & Cranfield sending another over to pick up crew
- 1445 Capt. Galloday, Sp signals advises that our Beam approach will be operated continuously except for standard maintenance periods which are from 1300 to 1400 daily and 0900 to 1200 on Tuesdays. During these maintenance

periods and at any other time when our beam may be U/S Chelveston will operate their beam. Chelveston has been notified of this arrangement.
